- 83 x SPDT Configuration
- Electro-Mechanical Relays
- Maximum Current 2A Hot or Cold Switching
- Switch up to 200VDC/140VAC and up to 60W Max Power
- VISA, IVI & Kernel Drivers Supplied for Windows
- Supported by PXI or LXI Chassis
- 3 Year Warranty

The 40-100 2A Relay Module is suitable for applications requiring medium power switching with very high density.

Featuring 2 Amp current capacity and voltages to 200VDC/140VAC, the module is configured as 83 x SPDT (Single Pole Double Throw)

Connections are made via a front panel mounted 500-pin SEARAY high density connector. Pickering also provide a wide range of connector and cabling solutions, refer to Pickering's "Interconnection Catalog" or visit our web site.

Typical uses will be found in Automotive, Aerospace, Military and Power Cell Testing applications.

Alternative Lower Density 2A SPDT Relay Modules:	
40-131-001	16 x SPDT Relays
40-131-201	26 x SPDT Relays
40-138	Custom configurations, up to 52 SPDT Relays in multiples of 4
40-139-201	52 x SPDT Relays

40-100 Ultra High Density 2A Relay Module - 83 x SPDT

pickering

Relay Type & Maintenance

The 40-100 module is fitted with electro-mechanical signal relays, palladium-ruthenium, gold covered contacts.

The module is of a single circuit board construction and uses through hole relays (not SMT relays) so field maintenance is greatly simplified. In addition a **Spare Relay** is built onto the circuit board to facilitate easy maintenance with minimum downtime.

Switch Specification

Switch Type:	Electro-mechanical
Contact Type:	Palladium-Ruthenium, Gold Covered Bifurcated
Max Switch Voltage:	200VDC/140VAC*
Max Power:	62.5VA, 60W
Max Switch Current:	2A
Max Continuous Carry Current:	2A for 10 Relays, 1A for 83 Relays
Initial On Path Resistance:	<350mΩ, 150mΩ typical
Off Path Resistance:	>$10^9\Omega$
Thermal Offset:	<10µV
Typical Operate Time:	3ms
Expected Life (operations)	
Very low power signal load:	>10^8
Low power load (2W):	>1.5×10^7 (0.1A 20VDC)
Medium power load (30W):	>5×10^6 (1A, 30VDC)
Full power load (60W):	>1×10^5 (2A, 30VDC) >1×10^5 (0.3A, 200VDC)

* For full voltage rating, signal sources to be switched must be fully isolated from mains supply and safety earth.

RF Specification

Bandwidth (-3dB):	40MHz	
Crosstalk (typical):	10kHz:	-80dB
	100kHz:	-65dB
	1MHz:	-40dB
	10MHz	-20dB
Isolation (typical):	10kHz	80dB
	100kHz:	65dB
	1MHz:	40dB
	10MHz:	20dB

Power Requirements

+3.3V	+5V	+12V	-12V
200mA	1A	0	0

Mechanical Characteristics

Single slot 3U PXI (CompactPCI card).
Module weight: 220g
3D models for all versions in a variety of popular file formats are available on request.

Connectors

PXI bus via 32-bit P1/J1 backplane connector.
Signals via front panel 500-pin SEARAY female connector, for pin outs please refer to the operating manual.

We recommend that Pickering mating connectors are used with this module which are designed to ensure there are no mechanical interference problems when used in a PXI chassis.

Operating/Storage Conditions

Operating Conditions

Operating Temperature:	0°C to +55°C
Humidity:	Up to 90% non-condensing
Altitude:	5000m

Storage and Transport Conditions

Storage Temperature:	-20°C to +75°C
Humidity:	Up to 90% non-condensing
Altitude:	15000m

PXI & CompactPCI Compliance

The module is compliant with the PXI Specification 2.2. Local Bus, Trigger Bus and Star Trigger are not implemented.

Uses a 33MHz 32-bit backplane interface.

Safety & CE Compliance

All modules are fully CE compliant and meet applicable EU directives: Low-voltage safety EN61010-1:2010, EMC Immunity EN61326-1:2013, Emissions EN55011:2009+A1:2010.

Product Order Codes

83 x SPDT, 2A Relay Module	40-100-001

Accessories:

The following is a sample of the connection accessories available for the 40-100-001 module:

SEARAY 500-pin male connector to 5x50-pin female D-type connector (250-port version) - 1m **A250RMR-5F050D-5A100**

SEARAY 500-pin male connector to unterminated cable assembly (250-port version) - 1m   **A250RMR-F-5A100**

Product Customization

Pickering PXI modules are designed and manufactured on our own flexible manufacturing lines, giving complete product control and enabling simple customization to meet very specific requirements.

Customization can include:

- Alternative relay types
- Mixture of relay types
- Alternative number of relays
- Different performance specifications

All customized products are given a unique part number, fully documented and may be ordered at any time in the future. Please contact your local sales office to discuss.

Support Products

Spare Relay Kits

Kits of replacement relays are available for the majority of Pickering's PXI switching products, simplifying servicing and reducing down-time.

Product	Relay Kit
40-100-001	91-100-001

For further assistance, please contact your local Pickering sales office.

Mating Connectors & Cabling

For connection accessories for the 40-100 module please refer to the 90-021D 500-pin SEARAY Connector Accessories data sheet where a complete list and documentation can be found for accessories, or refer to the Connection Solutions catalog.

Pickering can supply mating SEARAY connector and cable assemblies to enable easy integration of the 40-100 Relay Module

Chassis Compatibility

This PXI module must be used in a suitable chassis. It is compatible with the following chassis types:

- All chassis conforming to the 3U PXI and 3U Compact PCI (cPCI) specification
- Legacy and Hybrid Peripheral slots in a 3U PXI Express (PXIe) chassis
- Pickering Interfaces LXI or LXI/USB Modular Chassis

Chassis Selection Guide

Standard PXI or hybrid PXIe Chassis from any Vendor:

- Mix our 1000+ PXI switching & simulation modules with any vendor's PXI instrumentation
- Embedded or remote Windows PC control
- Real-time Operating System Support
- High data bandwidths, especially with PXI Express
- Integrated module timing and synchronization

Pickering LXI or LXI/USB Modular Chassis—only accept our 1000+ PXI Switching & Simulation Modules:

- Ethernet or USB control enables remote operation
- Low-cost control from practically any controller
- LXI provides manual control via Web browsers
- Driverless software support
- Power sequencing immunity
- Ethernet provides chassis/controller voltage isolation
- Independence from Windows operating system

Connectivity Solutions

We provide a full range of supporting cable and connector solutions for all our switching products—20 connector families with 1200+ products. We offer everything from simple mating connectors to complex cables assemblies and terminal blocks. All assemblies are manufactured by Pickering and are guaranteed to mechanically and electrically mate to our modules.

Connectors & Backshells   **Multiway Cable Assemblies**   **RF Cable Assemblies**   **Connector Blocks**

We also offer customized cabling and have a free online **Cable Design Tool** that can be used to create custom cable solutions for many applications.
Visit: pickeringtest.com/cdt to start your design.

Mass Interconnect

We recommend the use of a mass interconnect solution when an Interchangeable Test Adapter (ITA) is required for a PXI or LXI based test system. Our modules are fully supported by both Virginia Panel and MacPanel.

Pickering Reed Relays

We are the only switch provider with in-house reed relay manufacturing capability via our sister company, Pickering Electronics. These instrument grade reed relays feature *SoftCenter*® technology, ensuring long service life and repeatable contact performance.

Programming

Pickering provide kernel, IVI and VISA (NI & Keysight) drivers which are compatible with all Microsoft supported versions of Windows and popular older versions. For a list of all supporting operating systems, please see: pickeringtest.com/os

The VISA driver is also compatible with Real-Time Operating Systems such as LabVIEW RT. For other RTOS support contact Pickering. These drivers may be used with a variety of programming environments and applications including:

- **Pickering Interfaces Switch Path Manager**
- **National Instruments** products (LabVIEW, LabWindows/CVI, Switch Executive, MAX, TestStand, VeriStand, etc.)
- **Microsoft Visual Studio** products (Visual Basic, Visual C+)
- **Keysight** VEE and OpenTAP
- **Mathworks** Matlab
- **Marvin** ATEasy
- **MTQ Testsolutions** Tecap Test & Measurement Suite

Drivers for popular Linux distributions are available, other environments are also supported, please contact Pickering with specific enquiries. We provide Soft Front Panels (SFPs) for our products for familiarity and manual control, as well as comprehensive documentation and example programs to help you develop test routines with ease.

To learn more about software drivers and development environments, please go to: pickeringtest.com/software

Signal Routing Software

Our signal routing software, Switch Path Manager, automatically selects and energizes switch paths through Pickering switching systems. Signal routing is performed by simply defining test system endpoints to be connected together, greatly accelerating Test System software development. To learn more, please go to: pickeringtest.com/spm

Diagnostic Relay Test Tools

eBIRST Switching System Test Tools are designed specifically for our PXI, PCI or LXI products, these tools simplify switching system fault-finding by quickly testing the system and graphically identifying the faulty relay.

To learn more, please go to: pickeringtest.com/ebirst
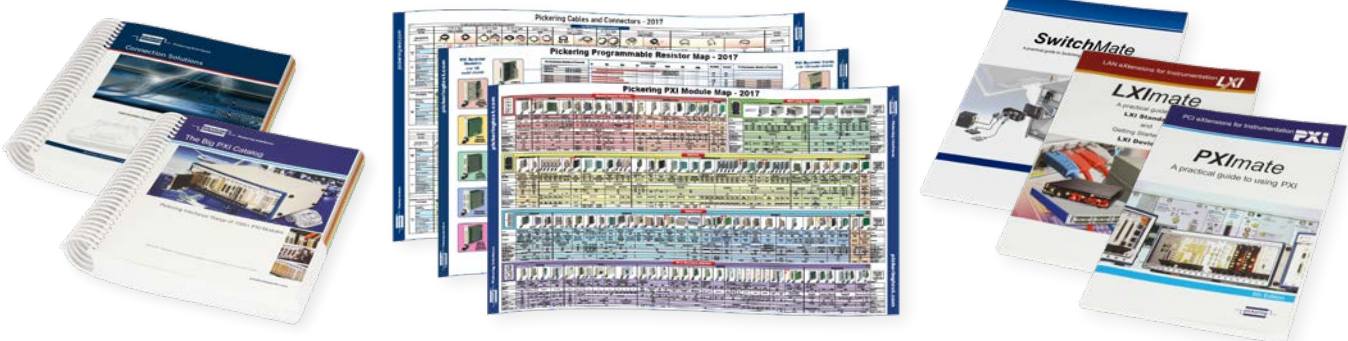

Three Year Warranty & Guaranteed Long-Term Support

All standard products manufactured by Pickering Interfaces are warranted against defective materials and workmanship for a period of three years from the date of delivery to the original purchaser. Extended warranty and service agreements are available for all our modules and systems with various levels to suit your requirements. Although we offer a 3-year warranty as standard, we also include guaranteed long-term support—with a history of supporting our products for typically 15-20 years. To learn more, please go to: pickeringtest.com/support

Available Product Resources

We have a large library of product resources including success stories, product and support videos, articles, as well as complete product catalogs and product reference maps to assist when looking for the switching, simulation and cable and connector solutions you need. We have also published handy reference books on Switching Technology and for the PXI and LXI standards.
